JOB TITLE:	Physiotherapist	JOB DESCRIPTION NO.:	60121
CLASSIFICATION:	Physiotherapist Grade II (f)	GRID/PAY LEVEL:	P PTOT2
COLLECTIVE AGREEMENT:	Health Science Professionals	HSCIS NO.:	37200
UNION:	CUPE; PEA	JOB/CLASS CODE:	60121
PROGRAM/DEPARTMENT:	Continuing Health Services; Home & Community Care	BENCHMARKS (If Applicable):	
REPORTING TO:	Manager or designate		
FACILITY/SITE:	VIHA South Island Health Services Delivery Area; VIHA Central Island Health Services Delivery Area		

JOB SUMMARY:

In accordance with the Vision, Purpose, and Values, and strategic direction of the Vancouver Island Health Authority (Island Health), patient and staff safety is a priority and a responsibility shared by everyone; as such, the requirement to continuously improve quality and safety is inherent in all aspects of this position.

Reporting to the Manager or designate, and working as part of a interdisciplinary team, plans, organizes, implements and evaluates rehabilitation care for clients with chronic, acute, palliative or rehabilitative health care needs in the community setting. Duties and responsibilities include assessing, treating and educating clients and caregivers and consulting and liaising with other health care professionals. The Physiotherapist follows a model of client-centered care to maintain a continuum of physiotherapy services to promote and maintain optimal functional independence in a safe home environment.

TYPICAL DUTIES AND RESPONSIBILITIES:

1. Provides physiotherapy services to clients in their places of residence, recreation and vocation including Health Services for Community Living (HSCL) clients living in Ministry of Children/Family Development (MCFD) and Services for Community Living (SCL) licensed and unlicensed homes through methods such as assessing, initially and subsequently, the client's physical, cognitive and psychosocial function, occupational performance, physical environment and cultural milieu and planning and implementing a rehabilitative care plan.
2. Provides to clients, a variety of clinical interventions such as therapeutic exercise regimes, recommendations on environmental modifications, basic seating assessments, recommendations on seating and positioning techniques, dysphagia and advising on management techniques, cardio respiratory education and socio-emotional support for client/family and caregiver, activities of daily living training and recommendations for items such as durable medical equipment, lifts and transfer techniques, basic mobility training, heat and ice applications and recommendations for orthotics.
3. Provides specific physiotherapy clinical interventions in areas such as complex cardio-respiratory therapy, complex ambulatory aids/gait re-education, electrotherapy such as laser, tens, ultrasound, myostimulation and ultraviolet, cryotherapy and manual techniques.
4. Provides evaluation and ongoing monitoring of the client's status, therapeutic regime and environment, making revisions to the client's rehabilitation care plan and discharge planning.
5. Refers the client to appropriate community resources, other health professionals and service agencies when indicated.

6. Advocates on behalf of clients and the health care system through methods such as providing short-term assistance to clients to obtain services, resources and fair processes or lobbying for the development of services and programs to address urgent client needs.
7. Participates as a member of the interdisciplinary team and as a resource for people with chronic, acute, palliative or rehabilitative health care needs in the identification and development of resource material to enhance the knowledge of these individuals. Develops, evaluates and revises information materials for communication to members of the team.
8. Transfers to Community Health Workers, specific delegated rehabilitation tasks.
9. Documents information including relevant clinical data, assessment information, treatment plans, progress reports and care plans manually and/or electronically. Prepares client related documentation and correspondence such as funding letters.
10. Contributes to the practicum experience of students by performing duties such as providing supervision, clinical education and guidance to students and providing feedback on performance.
11. Assists with orientation of new staff, other health professionals and support staff through methods such as demonstrating own work procedures.
12. Maintains and updates knowledge in Physiotherapy through methods such as reviewing literature, communication with other professionals and attendance at relevant education programs as requested and approved in order to contribute to the continuing improvement of care.
13. Participates in continuous quality improvement/quality assurance activities through methods such as evaluation and measurement of outcomes of programs/care, follow-up of unusual occurrences, identification and participation in research studies and contribution to the identification of new policies and best practices for the profession and the organization.
14. Performs other related duties as assigned.

QUALIFICATIONS:

Education, Training And Experience

Graduation from a recognized university program in Physiotherapy. Current practicing full registration with the College of Physical Therapists of BC (CPTBC). Eligible for membership in the Canadian Physiotherapy Association (CPA). Two (2) years of recent related experience including experience working in a community based therapy program or an equivalent combination of education, training and experience. Valid BC Driver's Licence.
